Are you planning to visit Italy for the very first time?

Are you studying Italian at a beginner level?

This video is just right for you!

15 Italian phrases for travelling

When visiting a foreign country, it's always a good idea to learn some sentences or phrases in the local language, even if you can't speak much of it. Locals will love your effort, and if you can't understand what they say in return they'll do their best to help you!

To learn a new language we all have to be daring, and why not, to make mistakes! Those mistakes, along with your successes, will pave your road to fluency, and that road starts from here, from this very basic Italian toolkit!

HOW TO GET THE MOST OUT OF THIS VIDEO

To get the most out of this video, watch it at least a couple of times, so you'll get used to the rhythm and pronunciation; then pause the video after each sentence and repeat out loud. Recording yourself is a good method to check your pronunciation. I will repeat each sentence twice. Andiamo!
